

## Addendum (25-10865-30)

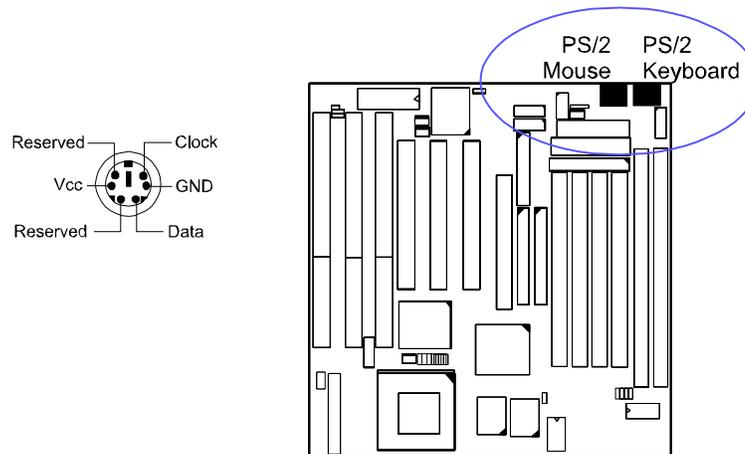

### To : Users of Manuals for VA-503+

If your motherboard is PS/2 mouse and PS/2 keyboard onboard. Some information in this manual were updated. The following information may helpful.

1. Page 22, the figure and text about *Keyboard Connector: AT\_KB* were replaced by the following information -

#### *PS/2 Keyboard and Mouse Connector: KB, MS*

These two 6-pin female connectors are used for your PS/2 keyboard and PS/2 mouse.

2. Page 23, 25 (25-10865-01 only)

The photo of EICA should be exchanged with that of CHAS\_FAN.

3. Page 28

the ATX power supply connector is manufacturing optional.
